YMCA AQUATIC PROGRAM DESCRIPTIONS

WATER FITNESS CLASSES

(Participants must be 12 years of age and older unless otherwise noted)

Y water classes? Water exercise offers 12 times the resistance of land-based classes, yet placing 10% to 50% less stress and strain on your body and joints. Benefits include increased endurance, strength, flexibility, range of motion, balance and core strength. Classes provide a challenging reduced impact option for all ages and fitness levels. An ideal way to cross-train from your high impact/hard-hitting land workouts and still get a great cardio and strength session.

AQUA FIT is a varied intensity class that combines cardio with strength building. For all fitness levels.

Aqua Tabata: Tabata is one of the most effective types of high intensity interval training. Mixing this format with the properties of water through a variety of simple yet intense exercises allows each class to blast away the calories and increase resting metabolic rate in short amounts of time. Whether your goal is muscle tone, weight loss, cross training, or just some fun, this class will help you get there.

Hydro Blast Experience the best of cardio and strength water workout for every part of your body. Cardiovascular work, sculpting and stretching make a terrific workout without stress to the joints. Enjoy this high energy, low impact water class suited for ALL fitness levels.

Joint Power This aqua class aims to increase muscle strength and endurance. Focus on increasing range of motion within the joint areas that are important for day to day simple life functions.

Liquid Intervals This class provides a high intensity workout using various timed intervals to step up the pace. Great cardio mixed with balance, core, and muscle building segments, yet low impact on your joints, but great for strength, endurance, and burning calories. This class may or may not use equipment and any movement can be modified to fit any fitness level.

SilverSplash® offers lots of fun shallow-water moves to improve agility, flexibility and cardiovascular endurance. A special SilverSneakers® kickboard is used to develop strength, balance and coordination.

H2O Cardio Strength will compliment your cardio workouts by focusing on building strength and toning your muscles. Different muscle groups will be focused on, in variety of stations.

SWIM OPTIONS

Lap/Exercise Swim is scheduled time for members to use the pool for lap swim and other aquatic exercises. 1 to 2 lanes are open during Lap Swim times. Open Swim is scheduled swim time for patrons to use the pool for a variety of different activities.
