YMCA AQUATIC PROGRAM DESCRIPTIONS

WATER FITNESS CLASSES

(Participants must be 12 years of age and older unless otherwise noted)

Y water classes? Water exercise offers 12 times the resistance of land-based classes, yet placing 10% to 50% less stress and strain on your body and joints. Benefits include increased endurance, strength, flexibility, range of motion, balance and core strength. Classes provide a challenging reduced impact option for all ages and fitness levels. An ideal way to cross-train from your high impact/hard-hitting land workouts and still get a great cardio and strength session.

AQUA BLAST is a rapid fat burning class that uses innovative routines featuring flowing movements, jumps, kicks assisted by buoys, noodles and gloves to tone and strengthen your body.

AQUA FIT is a varied intensity class that combines cardio with strength building. For all fitness levels.

Aqua Tabata: Tabata is one of the most effective types of high intensity interval training. Mixing this format with the properties of water through a variety of simple yet intense exercises allows each class to blast away the calories and increase resting metabolic rate in short amounts of time. Whether your goal is muscle tone, weight loss, cross training, or just some fun, this class will help you get there.

Aqua Yoga is a gentle and very low impact aquatic activity. It takes the principles and movements of Yoga and adapts them to the water environment. With the release of gravity, the body is able to find the optimum stretch. By using the rhythm of the breath an inner sense of relaxation can be achieved. All fitness levels.

Aqua Zumba integrates the Zumba formula and philosophy with traditional aqua fitness disciplines to create a safe, challenging, water-based workout that is cardio-conditioning, body-toning, and most of all, exhilarating beyond belief.

Hydro-splash Mix: Get a cardio and strength workout by mixing your workout up with different formats each week. This workout is for all fitness levels.

Liquid intervals: This class provides a high intensity workout using various timed intervals to step up the pace. Great cardio mixed with balance, core, and muscle building segments, yet low impact on your joints, but great for strength, endurance, and burning calories. This class may or may not use equipment and any movement can be modified to fit any fitness level.

Shallow Water Fitness: is a low-impact workout, but maintains the intensity of land aerobic classes. The different drills use resistance equipment, such as noodles and buoys, to work the legs, knees and arms.

Senior Fitness is a low-impact workout for active, aging adults. Perfect for seniors having trouble with standing, who might have balance issues, or who are recuperating from an illness or injury. It focuses on stretches and balance, as well as specific muscle strengthening exercises in the water using a variety of pool equipment such as buoys and noodles.

SilverSplash® offers lots of fun shallow-water moves to improve agility, flexibility and cardiovascular endurance. A special SilverSneakers® kickboard is used to develop strength, balance and coordination.

STRENGTH H2O will compliment your cardio workouts by focusing on building strength and muscle. We will use aqua equipment including buoys, noodles and kickboards to work the whole body. This class will be a shallow water workout, and is guarantee to tone and strengthen while working with the resistance of the water. Aqua yoga will also be incorporated into this class. All fitness levels welcome.

Total Body H2O: This class incorporates the use of several forms of aquatic exercises and different pieces of aquatic equipment. Class may take place in either shallow or deep water or both. Some workouts may focus on circuit training to build on cardio, strength, flexibility and endurance while having fun! Your body will thank you for this aqua experience. For all fitness levels!

SWIM OPTIONS

Lap/Exercise Swim is scheduled time for members to use the pool for lap swim and other aquatic exercises. The 2 lanes are open during Lap Swim times. Open Swim is scheduled swim time for patrons to use the pool for a variety of different activities.
